PROFESSIONAL SUMMARY

Full Stack Developer with over 3 years of experience building scalable and high-performance web applications. Specialized in React, Next.js, Node.js, and AWS, with strong expertise in developing B2B and e-commerce solutions. Committed to code quality, best development practices, and delivering real business value. Proven ability to work in agile environments and internationally distributed teams.

WORK EXPERIENCE

Full Stack Developer

Aug 2023 - Mar 2025

Farmaloop - Startup, E-commerce, Pharmacy

- Developed and maintained key modules of the internal admin platform used by 10+ employees to manage customer data and operations.
- Implemented a point-of-sale (POS) system for direct sales, reducing average sale time to under 5 minutes.
- Optimized the real-time order processing module, handling up to 100 orders/hour and increasing operational efficiency by 30%.

Frontend Developer

Feb 2023 - Aug 2023

Contactemos Contact Center - SaaS, B2B

- Resolved critical bugs in the appointment scheduling application, significantly reducing user abandonment rate.
- Developed complete modules for customer, location, and appointment management, improving end-user experience.
- Proposed and implemented features that increased SaaS system usability, receiving positive feedback from the product team.

Frontend Developer

Apr 2022 - Feb 2023

CheshTech Digital Agency - Digital Agency, B2B

- Designed key interfaces and pages using Next.js and Gatsby.js for high-performance B2B websites.
- Refactored code in existing applications, improving readability and reducing codebase size by 15%.
- Improved load times by up to 20% through advanced performance optimization techniques.
- Developed modules and integrations for e-commerce using Shopify API and Apollo Server.

Freelance Frontend Developer

Dec 2021 - May 2022

Upwork - Freelance

- Built interactive React components to display audio data via REST APIs, creating intuitive and responsive interfaces.
- Diagnosed and resolved critical backend API connection errors, improving application stability.
- Gained valuable experience working with agile methodologies and management tools like Jira in international teams.

FEATURED PROJECTS

Kumbio - Appointment Management Application 2023
React, Next.js, TypeScript, Material UI

- UX refactoring and development of new management modules that significantly reduced user abandonment rate.

Farmaloop - Online Pharmacy Platform 2023 - 2025
React, Next.js, TypeScript, Node.js, MongoDB, AWS

- Development of admin modules, point-of-sale (POS), and real-time order optimization. Internal modules used by 10+ employees, sales under 5 minutes, and 30%+ operational efficiency.

Teslo Shop - E-commerce Platform 2023
Next.js, React, TypeScript, Material UI, Paypal API

- Fast-loading website with optimized SEO and PayPal payment integration.
